

UPCOMING EVENT
9th February 2024

CHINESE NEW YEAR

We would like to invite all Parents and Guardians to join their children in celebrating Chinese New Year 2024 – The year of the Dragon – with Finnway International School Phuket.

During this morning time we will have: Dragon craft making, a selection of Chinese snacks available, a ring toss game where children can win a prize and more! **We encourage all children and parents to dress either in traditional Chinese clothing or red clothing for the morning. If your child has PE or an after school club, please ensure you bring a change of clothing for after the event.**

You are welcome to attend at any point during the event. If you cannot stay during the event time, staff will be available to supervise your children. Please note, this is a normal school day. **After the event, children will return to their class for their lessons and after school clubs will be running as normal.**

Extra Parking will be available on the rear field outside the Kindergarten Campus

When: Friday 9th February 2024

Time: 8:15 - 10AM

Where: Main Campus Playground

PARENTS parking area

BOAT LAGOON

We look forward to seeing everyone in red on February 9th!

Finnway International School Field Trip Highlights: A Day of Learning and Action!

In January, our amazing Grade 1-5 students went on a special adventure to the Sustainable Maikhao Foundation to explore the impact of rubbish on our oceans.

The day started with a workshop called "Saving our Oceans by Managing Rubbish Responsibly." During this workshop, our kids learned all about marine pollution and the challenges faced by ocean creatures. They also discovered the cool fact that rubbish can be recycled into useful things! This made their learning even more exciting and practical, showing them how important it is to take care of our oceans.

After the workshop, our little eco-warriors got hands-on with a beach clean-up. They were out there making a real difference, putting into action what they learned about responsible waste disposal. This wasn't just about cleaning up the beach; it was about instilling a sense of responsibility and making them active citizens who care about the world around them.

To wrap up the day, our students had a rubbish sorting and reflection session. They sorted through what they collected and had some thoughtful moments thinking about how their small actions contribute to creating a sustainable future.

We were truly touched to see our kids getting so involved in something bigger than themselves. Their commitment to making a positive impact on the environment was heart-warming. These experiences go beyond textbooks; they teach values like responsibility, empathy, and being an active part of the community.

A big shout-out to the Sustainable Maikhao Foundation for making this field trip so awesome!

Picking up from After School Clubs

Picking up from After School Clubs
After reviewing our after school pick up process, we have made some changes to ensure the safety for children, parents and staff.

We kindly ask that all parents/guardians wait in the Primary Canteen to pick up your child. Please do not wait outside the school gate. We also request that if your child's club is in the Kindergarten campus, you wait in the Primary Canteen, your child will be brought to you on the **Primary Side only.** If you come to the Kindergarten gate, security will advise you to go through the main campus doors and wait in the canteen.

This will be in effect from Monday 5th February 2024

We thank you for your kind co-operation to ensure safety in our school.
