Kindergarten 3 Graduation

What a truly special evening it was as we celebrated the Kindergarten 3 Class of 2026 and the end of an important chapter in their learning journey.

Our graduates reflected on their growth through a heartfelt graduation ceremony, sharing performances, speeches, and special moments with their families.

The students delighted the audience with their performance of "Golden," a song chosen to represent the confidence, kindness, friendship, and resilience they have developed throughout their time in Kindergarten. What made this performance even more meaningful was the dedication the children showed in preparing for their special day. Throughout the weeks leading up to graduation, they practised with enthusiasm, supported one another, and worked hard to make their performance the very best it could be. They understood that this was their celebration, and they took great pride in creating a memorable moment for their families and friends.

We were also honoured to hear inspiring words from our parent representatives and student speakers, reminding us of the strong partnership between home and school that helps every child thrive.

The ceremony concluded with the presentation of graduation certificates, a celebratory hat toss, and many joyful family photographs as we marked this important milestone together.

To our graduates, we are incredibly proud of all that you have achieved and even more proud of the wonderful people you are becoming. We wish you every success as you begin your next adventure in Primary School.

Congratulations, Kindergarten 3 Class of 2026!

Parent Learning Cafe

We would like to extend our sincere **thanks to all the parents and staff** who attended our recent **Parent Learning Café on AI Safety and Digital Parenting**. It was wonderful to see our school community come together to learn, share ideas, and explore ways to support children in today's rapidly changing digital world.

During the seminar, parents gained valuable insights into keeping children safe in the age of Artificial Intelligence, understanding the impact of gadgets and AI on young learners, and developing healthy digital habits at home. The session also encouraged meaningful discussions about balancing technology use while promoting responsible and safe online behavior.

A **special thank you goes to our guest speaker, Pavel Lebedev**, for sharing his expertise and practical advice. With his extensive experience in AI and education, Pavel provided parents with valuable knowledge and strategies to help guide their children through the opportunities and challenges of the digital age.

We are grateful for the enthusiastic participation of our parents and staff, which made the event both engaging and successful. At Finnway International School, we remain committed to supporting families through informative learning opportunities that help our students thrive both academically and personally.

Thank you for being part of this important conversation, and we look forward to welcoming you to future Parent Learning Café sessions.

End-of-Year Puppet Show

Our Grade 1 students took center stage today with their wonderful **End-of-Year Puppet Show!**

Throughout the project, students developed their storytelling skills by writing their own stories, creating puppets, and working collaboratively to bring their ideas to life. Their creativity, confidence, and teamwork were on full display as they shared their performances with family and friends.

A heartfelt thank you to all our parents for your support and encouragement. We were delighted to receive such positive feedback and are excited to make this a special tradition again next year!

Congratulations to our Grade 1 students on a fantastic performance! We are so proud of you!

FINNWAY SURVIVOR CAMP

Survive & Thrive. Tribes, Challenges, Growth. A Quest Like No Other!

06 – 31
July 2026
